The most common device is the mobile phone. Both of the pictures show how 95,15% of the participants have pointed out they own it. The laptop is also a current device (92,60%). Desktop computer differently, is not that owned (45,67%).

The possession difference between the current television and smart TV is not significant. Whereas 64,39% of the surveyed students have an ordinary television, 61,87% own a smart TV. These data demonstrate each day various more people buy televisions that have Internet connection.

According to the results, more than half of the respondents own almost all the items that appear in the pictures. The desktop computer is the exception. Barely 45,67% of the questionnaire's participants have it.

Besides, 2,09% of the students accept they also have other items. These are the named ones:

- 1 - Camera
- 2 - E-book
- 3 - Radio
- 4 - Cassette
- 5 - Music equipment
- 6 - Drone
- 7 - Watch
- 8 - Smartwatch
